Hi Patricia.

Just wanted to check in with you about my export request below. Any update on when the export will be complete? Thanks

Hi Patricia.

Could you export the entire shared mailbox (R4NPDES.Kampachi@epa.gov) so that it can be sent to the EPA Docket Center? It's my understanding that this is best done in the server given the size of the mailbox. Below are the export instructions provided.

> "Export the contents of the Outlook mailbox as a .pst file. Select the File -> Open & Export -> Import/Export option. Select the Export to a File option, and choose Outlook Data File (.pst). Highlight the email folder to export and select the Next button. Select the 'Allow duplicate items to be created' and use the Browse button to save the file on your computer. Email this .pst file to the docket center at fdms@epa.gov."
